

NEWSLETTER - SUMMER 2016

We are pleased to report a busy start to 2016 with further occupier activity on Strathclyde Business Park, along with increased park activities and events. All the park news articles can now be found on our website; www.strathclydebusinesspark.com

299 BUS SERVICE

Following feedback that occupiers would like the Park's 299 bus service to operate throughout the day, and at a higher frequency, HFD have worked with Strathclyde Passenger Transport (SPT) and North Lanarkshire Council (NLC) to secure funding for an extended service for an initial 12 months.

From Monday 20th June, the 299 will now run through the Park every 20 minutes – From 06.45 – 18.15 hours.

With 2 bus stops on Phoenix Crescent at Lark Way and Mallard Way, the timetable is co-ordinated with the train services at Bellshill Station offering public transport links to Lanarkshire, Glasgow and Edinburgh. Click on the link for timetable and further information about this service.

RUARI'S RIGHT ON TRACK

Local Scottish junior squad cyclist Ruari Yeoman is progressing well to thrive in his plan to be part of the GB Squad.

Following a run of great results including; winning silver at the British Track Championships in the 4K pursuit as part of the Scotland Team, Ruari also represented Scotland in the Revolution Series in Glasgow in November with some impressive results

Ruari was also part of the Scotland team which took part in the Pearl Izumi Tour Series through the streets of Motherwell on 17th May.

A725 ROAD WORKS

SBP would like to extend our thanks to all the Park occupiers for their patience and courtesy shown over the past weeks, with the temporary traffic management system onto the A725.

Whilst not notified of the works, Park Management have now been informed by Amey that the 'Give Way' will revert back to the 'Merge' onto the A725 northbound on Monday 11 July 2016.

WALK 'THE LOOP'

Did you know: 'The Loop' around Strathclyde Business Park is approx. 1.3 km making it perfect for a lunch hour stroll.

NHS guidelines recommend adults should aim for on average 20 minutes of moderate physical activity each day - a lunchtime walk at work is an ideal way to achieve this.

WELCOME

Strathclyde Business Park would like to welcomed some new occupiers including;

- Schiller Diagnostics UK Ltd
- Lusona Consultancy Group Ltd
- Steel Plate & Sections Ltd
- Torishima Europe Ltd
- Cedar Group
- Anovo UK
- Stephenson Construction (North) Ltd
- Securitas
